

DURA-EDGE

CALCINED CLAY
TOPDRESSING
FOR INFIELDS

Designed to last longer and **GO FURTHER.**

FairBall Topdressing is engineered to stay in place and give you more coverage and provide less particle breakdown, which means less applications and makes FairBall the most economical topdressing on the market. The volume of product recommended per infield is greatly reduced from industry standard, giving you the opportunity to apply FairBall on more fields.

- 100% natural earth product
- Most economical calcined clay topdressing on the market
- Baked over 1300° F for industry-leading particle durability
- Manages surface moisture and improves durability
- Lasts longer on the field so you use less throughout the season
- Particle sizes engineered to reduce wind and rain migration

INFIELD SKIN APPLICATIONS

- Infield skin topdressing
- Infield skin drying agent

TURFGRASS APPLICATIONS

- Till into native soil rootzones to relieve compaction
- Topdress & drag into sand rootzone after aeration
- Topdress & drag into turf after aeration to improve nutrient and water holding capacity
- Can be used in Drill & Fill and DryJect machines

The difference is in the dirt. DuraEdge.com
