

OFFICIAL INFIELD INSTALLER OF MINOR LEAGUE BASEBALL

Your Infield Renovation & Installation

HOMEFIELD SOLUTION

A certified installation is the best way to renovate your field from top to bottom, beginning to end. In conjunction with our DuraEdge partners, we're here to provide you with a long-term, all-encompassing solution for your infield. Sometimes your facility needs more than just a better infield. We handle all the details, providing you with complete project management including selection of all the right materials and products to meet your goal. We certify and train with some of the best installer crews across the country to ensure every DuraEdge product is installed correctly.

Homefield provides several services that can be completed within a short timeframe to help your immediate needs as well as your long-term plan for improving your infield surface.

A certified Homefield installation unlocks the full potential of your facility. Best of all, you qualify for a **Field Assurance™** program to protect your investment for years to come. For more information about Field Assurance, contact your DuraEdge or Homefield representative.

What your peers say about HOMEFIELD...

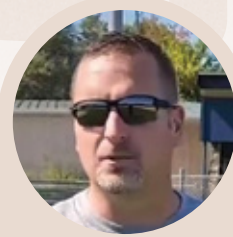

Our issues were like everyone else's.

It doesn't hold. You get dished out really fast. The playability isn't as good as it could be. We took care of all that when we committed to Homefield & DuraEdge.

Now our field is considered one of the best stadiums in the state. We've been a DuraEdge customer for more than ten years and annual maintenance through Homefield keeps us as one of the top fields, whether it's a regrade or adding material. Staying consistent every year keeps us away from the huge project when you let things slip.

We couldn't be happier."

— **Adam Taylor**, head baseball coach, Chelsea High School, Chelsea, MI

If it rained on our fields, we just couldn't get games in.

So, I started doing some research and found that the nicer fields in the area were done by Homefield & DuraEdge. We redid all of our county fields and the DuraEdge product is beautiful. The dirt is safe, we don't have game cancellations from water collecting in ruts and dips like we used to.

If you look back at pictures of the field from when it was done two years ago, you won't notice any difference. It looks the same as the day it was done. As the old saying goes, "things don't last like they used to." Well, in this case, I'm here to tell you, this DuraEdge product does hold up. **The kids at each school are proud to play on these fields."**

— **Jimmy Bledsoe**, board member, Marion County Parks & Rec, Marion County, WV
