

DURA-EDGE

4x30 CLASSIC EXPANDED SHALE
TOPDRESSING
FOR INFIELDS

OFFICIAL TOPDRESSING OF MINOR LEAGUE BASEBALL

Durable & resilient topdressing that delivers **TOP PERFORMANCE.**

ProSlide 4x30 Classic Expanded Shale Topdressing a more playable infield through its excellent sliding surface and color contrast for tracking ground balls. Unlike calcined clays, its hardness resists physical degradation caused by routine infield dragging & rolling, making it the most durable topdressing on the market. It's non-absorbent, so it allows water and rainfall to pass through to the infield soil for improved resiliency, allowing it to dry more quickly for faster reentry onto the playing surface after a rain event.

ProSlide can be blended with a calcined clay topdressing so you can adjust the water holding capacity at the surface to achieve your desired infield resiliency performance.

- Color-fast reddish appearance, won't fade or wash off
- Gradation range (4x30) designed for recreational and intermediate levels
- Compatible with FairBall and PlayBall
- Most attainable price point for expanded shale topdressing

INFIELD SKIN APPLICATIONS

- Infield skin topdressing
- Infield skin drying agent

TURFGRASS APPLICATIONS

- Till into native soil rootzones to relieve compaction
- Topdress & drag into sand rootzone after aeration
- Topdress & drag into turf after aeration to improve nutrient and water holding capacity
- Can be used in Drill & Fill and DryJect machines

4x30 CLASSIC EXPANDED SHALE TOPDRESSING

▶ PRESEASON INFIELD PREP

1. **Ensure infield skin** has been properly graded and compacted for positive run off.
2. **Apply ProSlide 4x30 Topdressing** to your infield according to the *Usage Table* below based on your infield size and the depth of topdressing. *Do not maintain more than 1/4" of topdressing on the surface of your infield skin.*
3. **Scarify or nail drag** ProSlide topdressing into top 1/4". *Do not till as an amendment.*
4. **Finish drag** for consistent coverage across infield skin.
5. **Call 866-867-0052** with questions and more recommendations.

▶ IN-SEASON DAILY MAINTENANCE

1. **Maintain 1/4"** coverage of ProSlide topdressing on infield surface. Add more as needed to maintain depth.
2. **Maintain even moisture** throughout infield profile with heavy "flood watering" after last game of the day.
3. **Light nail drag** in morning with proper moisture.
4. **Finish mat drag** and maintain even moisture until game time.

FOR INFIELDS

OFFICIAL TOPDRESSING OF MINOR LEAGUE BASEBALL

The extremely durable topdressing that's **BREAKDOWN RESISTANT.**

ProSlide 6x30 Expanded Shale Red or Brown Topdressing is engineered to present a professional appearance with less migration. The reduction of fines in the screening process gives you a more even coverage. The hardness of the expanded shale product ensures long lasting particles that remain on top. This product is solely intended to be utilized on the surface of your infield skinned areas, not tilled in.

- Color-fast red or brown appearance that will not fade or wash away and provides excellent contrast for tracking ground balls
- Available in one gradation range, (6x30) a consistent smaller particle size
- A professional feel with a fine-textured, smooth sliding surface
- Most durable topdressing on the market resisting particle breakdown
- Less absorbent to help infield skin retain critical moisture

INFIELD SKIN APPLICATIONS

- Infield skin topdressing
- Infield skin drying agent

TURFGRASS APPLICATIONS

- Till into native soil rootzones to relieve compaction
- Topdress & drag into sand rootzone after aeration
- Topdress & drag into turf after aeration to improve nutrient and water holding capacity
- Can be used in Drill & Fill and DryJect machines
